8/20/32/44/56/68/80/92/104/116

Sudarshan Chakra indicates the cumulative influence of benefic and malefic planets as reckoned from : (i) the Ascendant, (ii) the Moon and (iii) the Sun at a glance. This also pinpoints the corresponding age-periods during which those influences will operate.

If the influences are of natural benefic planets (Jupiter, Venus, Mercury, Waxing Moon) only, then the whole year will be enjoyable and auspicious events will take place.

If the influences are of natural malefic planets (Mars, Saturn, Rahu, Ketu, Sun, Waning Moon) only, then the year might be problematic and inauspicious happenings are likely to take place.

### **Mantra for Bhadraksha**

ओऽम् गौरी शंकराय नमः।

### **Subha Mantra for Bhadraksha**

सर्व मंगल मांगल्ये शिवे सर्वथा साधिके  
श्रणये त्रयम्बके गौरी नारायणी नमस्तुते ।

### **Some Tests for checking the genuineness of the Rudrakshas**

#### **Floatation test:**

When a genuine Rudraksha seed is gently placed on water, it will sink; but if a fake one is placed on water, it will always float.

#### **Copper Test:**

A genuine Rudraksha is very hot, and has electromagnetic attraction with Copper. If beads are held with a string over a small round thin piece of Copper metal sheet (like a piece of Copper coin of old days), they tend to show a slow gradual rotational movement. If the rotation is observed to be in clockwise direction, then it is considered auspicious; otherwise, it is to be rejected – as it might be defective.

#### **Milk test:**

If an authentic Rudraksha seed is kept in a cup of milk for a day, the milk will not get spoilt. But if it is a fake one, the milk is to become spoilt.
