I pay my respects to the Sun, who is as radiant as the Japanese Rose flower, possesses great brilliance, is the destroyer of darkness, eliminates all sins, and is the son of Sage Kashyap. I salute the Moon, who is as radiant as curd, conch, and frost, emerged from the Milky Ocean, is the crown jewel of Lord Shiva, and symbolizes the nectar of life. I bow to Mars, who was born from Mother Earth, whose radiance is comparable to lightning, who is in his youth and holds power in his hands. I pay respects to Mercury, the son of the Moon, who is as deeply green as the bud of the Priyangu creeper, who possesses incomparable beauty and is endowed with tranquil qualities. I salute Jupiter, the teacher of gods and sages, who glows like gold, is endowed with wisdom, and is the lord of all the worlds. I salute Venus, who is as white as the snow, jasmine, and the stem of the lotus, who is the supreme teacher of the demons, the preacher of all scriptures, and the son of Sage Bhrgu. I bow to Saturn, who glows with the blue-black sheen of kohl, who is the son of the Sun, the elder brother of Yama, and was born from Chhaya and Martand (Sun). I pay my respects to Rahu, who is half-bodied, greatly powerful, known to swallow the Sun and the Moon, and who was born from the womb of Simhika. I bow to Ketu, whose radiance is like the flower of a Palasa plant, who is of a Rudra (ferocious) nature and the son of Rudra, who is fearsome, and is the head of the stars and planets. One who reads this prayer (that emerged from the mouth of Lord Veda Vyasa) during the day or at night with single-minded concentration, finds all his obstacles removed. The nightmares of men, women, and kings are destroyed. Those who read this gain exceptional wealth and health and see an increase in their strength.

Vimshottari Dasha is a system used in Vedic astrology for determining the planetary periods, also known as dashas, in a person's life. The word 'Vimshottari' means '120' in Sanskrit, which represents the total number of years in a complete cycle of all the planetary periods.

The system is based on the position of the Moon at the time of a person's birth, and it assigns certain periods of time to each of the nine planets of Vedic astrology. Each planet has a specific number of years assigned to it, ranging from 6 to 20 years, depending on its position in the system.

During each planetary period, the planet in question is said to have a significant influence on a person's life. This influence can be positive or negative, depending on the individual's birth chart and the specific planetary alignments at the time.

Vimshottari Dasha is considered an important tool in Vedic astrology, as it provides a detailed and accurate system for predicting major events and changes in a person's life. It is widely used by astrologers to make predictions about career, relationships, health, and other aspects of a person's life, and can be a valuable tool for those seeking guidance or insight into their future.

Precautions and General Rules of Lal-Kitab for Prerforming Remedies

- (1) Please perform only one remedy per day.
- (2) All remedies should be performed during the day i.e. after sunrise and before sunset. Remedies performed during the night might lead to unfavorable results. Only the recommended remedies should be performed after sunset.
- (3) It is advisable to first complete remedies that are minor and can be performed within a day.
- (4) Remedies that span over a long duration should be performed continuously, without any interruptions.
- (5) Women should not perform remedies that involve going to a temple during their menstrual cycle. Instead, they can ask a blood relative, like brother, sister, father, mother, grandfather, grandmother, son or daughter to perform those remedies on their behalf.
- (6) Remedies can be started on any day of the week. There is no need to consider a particular day like Monday, Tuesday, full moon or a new moon night to start performing remedies. Remedies that will last longer should not be started on the fourth, ninth or fourteenth day after full moon. However, remedies that last only a day can be performed on these days.
- (7) Every remedy is to be performed continuously for either 43 days or 43 weeks or 43 months. If the continuity gets broken, then even if it is the 39th day or 39th week or 39th month, the results might not be favorable or it may not be as effective as expected. However, if for some reason the remedy cannot be performed continuously then, on the day you want to stop it, you should wash some rice grains in milk and tie them in a white cloth. Then on the day you want to resume the remedy again, you should donate the rice at a religious place or throw them in flowing water or bury them in an orchard. Doing so will result in the remedy being considered as complete and you will see favorable results from it.
- (8) If you have been asked to perform a remedy for the remainder of your life then you should perform it first. You can then consider performing other remedies along with this one.
- (9) If a remedy requires you to bury something in the ground using a tool then you should leave the tool at the burial place. If the remedy spans several days then you should leave the tool at the burial place on the last day of performing the remedy.
- (10) You should not consume an article on the day when you are to donate it at a religious place or to throw it in flowing water.
- (11) Do not indulge in any sort of physical intimacy on the day you have to perform a remedy.
- (12) While performing any remedy, you should take special care in refraining from things/acts that you have been advised against. Examples are consumption of non-vegetarian food and alcohol, not maintaining self-integrity, not becoming a false witness, not eating or offering food to anyone, not desiring things that don't belong to you, not speaking lies, not indulging in any sort of physical intimacy with anyone other than your spouse and so on.
